

Ibrahim Ullah

Full Stack Developer (**JavaScript**, **React.js**, **Next.js**, **SQL**, **NoSQL**, **Jest**)

Manchester, UK | 07760 860 247 | ibrahimul106@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

I am a Full Stack Developer specializing in **React**, **Next.js**, **Express** and **Node.js**. I have developed a variety of projects, ensuring code reliability with **Jest**, optimizing performance, and focusing on enhancing UI/UX. My current interests include expanding my knowledge of **TypeScript** and exploring complementary technologies such as cloud deployment.

SKILLS

- Languages: **JavaScript** | **Node.js**
- Frontend: **React.js** | **Next.js** | **Vue.js** | **Tailwind CSS** | **Sass** | **React Native** | **HTML** | **CSS**
- Backend: **SQL** | **NoSQL** | **Express** | **REST APIs**
- Testing: **Test-Driven Development (TDD)** | **Jest** | **Supertest**
- Other: **Git** | **Agile and Scrum methodologies** | **Linux**

WORK EXPERIENCE

Freelance Project Consultant

September 2024 - October 2024

Tech Returners | Remote

Developed a **React**, **Next.js**, and **Tailwind CSS** application for an Exhibition Curator platform as part of the Tech Returners' Launchpad program

- Worked with 10,000 images, optimizing them using Shadcn UI and Next Images to reduce load time by 25%
- Integrated Harvard and MET Museum APIs, enhancing event management and artwork details
- Optimized the platform's performance, achieving 15% faster page loads by improving the data-fetching logic.
- Delivered the platform within 4 weeks, meeting MVP deadlines and improving user experience.

WORK EXPERIENCE CONTINUED

Junior Software Developer

April 2024

The Algorithm Avengers | Remote/Manchester

Developed a full-stack mobile application with **React Native**, **Expo Go**, and **Firebase**, enabling users to log and share their travel experiences

- Improved app performance by 20% through optimizing **Firebase** queries and data-fetching logic
- Collaborated in an agile team of 5 developers, ensuring on-time delivery and efficient use of **Git** for version control
- Led whiteboarding sessions and facilitated planning meetings, helping the team prioritize tasks and meet 100% of sprint goals
- Integrated user authentication with **Firebase**, enhancing security and improving user engagement by 15%

Junior Full-Stack Developer

January 2024 – April 2024

Northcoders | Remote/Manchester

Completed a 13-week intensive software development bootcamp, solidifying skills in the **PERN stack** (**PostgreSQL**, **Express**, **React**, **Node.js**)

- Worked across the stack to create robust applications, from **front-end** interface to **back-end** logic and **databases**
- Gained a deep understanding of **JavaScript** fundamentals, including asynchronous programming, ES6+ features, and **DOM manipulation**
- Strengthened problem-solving skills by utilizing self-tuition and documentation to independently resolve challenges and learn new frameworks
- Practiced **Test-Driven Development (TDD)** daily and participated in pair programming to enhance code quality and ensure 100% code coverage
