SUMMARY

I am a Junior Full Stack Developer passionate about building efficient and engaging software solutions. With proficiency in React, Next.js, and Node.js, I have developed projects ranging from a football data app to a mobile app designed collaboratively during my bootcamp. My background demonstrates strong problem-solving skills, teamwork, and a dedication to producing high-quality work. I am eager to grow my knowledge in cloud deployment and advanced development technologies.

SKILLS

- **Languages:** JavaScript | Node.js
- **Frontend:** HTML | CSS | React.js | Next.js | Vue.js | Tailwind CSS | Sass | React Native
- **Backend:** SQL | NoSQL | Express | REST APIs
- **Testing:** Test-Driven Development (TDD) | Jest | Supertest
- **Other:** Git | Github | Agile and Scrum methodologies | Linux

WORK EXPERIENCE

Freelance Project Consultant

September 2024 - October 2024

Tech Returners | Remote

- Developed an exhibition curator platform as part of Tech Returners' Launchpad program
- Managed the entire development lifecycle, including design, coding, and testing, ensuring the MVP is met
- Enhanced technical and professional skills through real-world consultancy experience, preparing for industry challenges
- Gained proficiency in frameworks and tools to improve efficiency and scalability

<https://github.com/Mullah98/exhibition-curator-project>

Technologies: Next.js, React.js, Tailwind CSS, APIs

WORK EXPERIENCE CONTINUED

Junior Software Developer

April 2024

The Algorithm Avengers | Remote/Manchester

- Worked in an agile team of five developers, using standard Git workflow practices to develop a mobile application
- Facilitated team planning meetings, contributed to technical decision-making, and led whiteboarding sessions for ticket delegation
- Researched and implemented unfamiliar technologies to address blockers, enhancing the tech stack to achieve project goals
- Fostered a collaborative and inclusive team environment through clear communication to build a friendly and supportive environment where we all felt valued, which was reflected in our team retrospective

<https://github.com/Mullah98/TraveLog>

Technologies: React Native, Expo Go, Firebase

Junior Full-Stack Developer

January 2024 – April 2024

Northcoders | Remote/Manchester

- Completed a 13-week intensive software development bootcamp, solidifying skills in the fundamentals of JavaScript, Node.js and React
- Collaborated with person front-end, back-end, and full-stack projects, building applications, websites, and APIs from scratch
- Strengthened problem-solving skills by utilizing self-tuition and documentation to independently resolve challenges and learn new frameworks
- Practiced Test-Driven Development (TDD) daily and participated in pair programming to enhance code quality and collaboration
