Personal Statement

Resourceful Junior Software Developer with experience in full-stack development, proficient in JavaScript, React, APIs and databases. I bring a diverse approach to problem-solving and collaboration, which allows me to contribute in innovative ways. As a former teacher, I have developed creative solutions to engage students and foster a collaborative learning environment. Similarly, my experience in the fast-paced food industry taught me to thrive under pressure and think critically on my feet. Combining my varied experiences, I am equipped to tackle challenges and deliver high quality solutions.

Technical Skills

- **Languages**: JavaScript | TypeScript | Node.js
- **Testing**: Test-Driven Development (TDD) | Jest | Supertest
- **Backend:** SQL | PostgreSQL | Node.js | Express | REST API
- **Frontend:** HTML | CSS | React | React Native | Vue.js | Sass
- **Soft skills:** Paired programming | Git

Professional Experience

Trainee Software Developer | Northcoders | January 2024 - April 2024

- Engaged in an intensive 3-month Software Engineering Bootcamp at Northcoders, a leading institution in Manchester known for its coding education
- Started with fundamental JavaScript concepts and progressed to daily paired programming katas
- Created a backend project called **The Northcoders News Project**
  - The project involved designing and implementing a dynamic API utilizing SQL, Jest, and TDD methodologies
  - Successfully hosted the project on Render to allow easy access for end-users at **https://nc-news-4rxh.onrender.com**
- Created a frontend project called **The Northcoders Market Place Project**
  - Developed a frontend for my Northcoders news project, a social news collection and discussion website
  - Created using React and implementing CRUD functionality which allows a user-friendly and interactive experience
  - Deployed the project on Netlify for seamless accessibility at **https://northcoders-marketplace.netlify.app/**
- Created a full-stack project called **TraveLog**
  - Collaborated with 5 other members to develop a travel diary app which allows users to document their holiday experiences through photos and destination logs
  - Had only 3 weeks to plan, develop and present the app to our mentors at Northcoders
  - Tech stack involved using React Native and JavaScript for the frontend, Firebase for the backend and Expo Go for mobile development
  - Here is a demo of the app: **https://northcoders.com/project-phase/travelog**

Personal Projects

- Created a personal portfolio website: **Ibrahim's portfolio**
  - Developed my portfolio built with React and experimented Sass for the first time which showcases my skills, projects and experience with a clean and responsive design
  - Implemented dynamic content and interactive features such as contact forms, to enhance user engagement
  - Optimized for user accessibility to ensure mobile compatibility
- Created a car rental website: **Elite Car Rental website**
  - Built a responsive car rental website using Vue.js and CSS
  - Integrated dynamic modal window enabling user interaction for a initiative car booking experience
  - Enhanced user experience through smooth animations and interactive features

Employment

Takeaway Assistant | Barakat Balti | September 2021 – Present

- Work as a server in a busy Indian takeaway, serving as the first initial point of contact for customers
- Deal with full order process in a fast paced environment which includes packaging orders and serving customers
- Manage financial responsibilities by creating daily invoices and handling end of day cash ups

Islamic School Teacher | Rawdhatul Ilm | September 2021 - February 2023

- Guided and educated a vibrant class of twenty-four enthusiastic 9-10 year-olds, imparting knowledge on Islam, Islamic etiquettes, and the art of fluently reading Arabic
- Developed structured lesson plans, assigned homework, and meticulously assessed and marked student submissions every weekend
- Demonstrated adept stress management and impeccable time management to ensure a smooth and enriching learning experience

Inbound Call Advisor | British Telecoms (BT) | August 2019 - July 2020

- Worked as a billing advisor, assisting customers with billing enquiries or complaints, directing them to appropriate departments for other issues
- Managed a high-volume workload, ensuring prompt and effective resolution of the customers complaint during calls
- Maintained meticulous tracking of key performance indicators, including call time, after-call time, and customer call-back metrics
- Earned recognition with multiple team awards for consistently achieving the best stats, exemplifying dedication to excellence

Education

BSc Architectural Engineering | University of Salford | 2021 - 2023

Level 3 Access to Computing | Tameside College | 2020 - 2021

6 GCSEs (grades A*- C) | Astley Sports College | 2009 - 2014

Certificates

- Graduation from the Northcoders software developer bootcamp

Hobbies

- Play football as a central midfielder. I play every 2 weeks with friends to maintain fitness and build teamwork
- Reading about Islamic history and modern day principles to broaden my knowledge and gain spiritual insight into the religion of Islam
- Immerse myself into role-playing and team-based video games where I engage in strategic challenges. These games, as well as providing entertainment, improve my ability to collaborate effectively and solve complex problems
